ERP in the Cloud with Acumatica

Acumatica's cloud-based software creates a centralized location for project management, accounting, contracts, job costs, commitments, subcontracts, compliance, retainage and more. As a trusted Acumatica affiliate, our experts help you bridge the gap between software selection, training, implementation and reporting so that you can leverage the power of a connected business.

- ✓ Acumatica Construction Edition
- ✓ HR and Payroll Software
- ✓ Acumatica Add-On Solutions

Refine Project Management

Acumatica helps you manage projects, costs and company-wide capacity by linking opportunities, contracts, schedules, budgets, change orders, subcontracts and compliance on one screen.

Simplify the Hiring Process

Perform background checks, get detailed feedback from previous employers and provide an online portal that lets employees compare and select benefit options through Acumatica's HR management.

Streamline Performance Management

Record job descriptions and annual reviews in one convenient location. Plus, track training and certificate programs with an automated renewal process to identify trends in employee performance.

Manage Your Financials

Use Acumatica to forecast and manage costs, payroll, overheads, profits, cash and taxes with revenue balance and completed contract accounting with multiple entities, currencies and languages.

Sage

As a five-time Sage North America Business Partner of the Year, there's no one more qualified to deliver a seamless software journey than Alliance Solutions Group. Whether you need to link all phases of your business cycle or create accurate estimates faster, we have the experience to bring your construction business to the next level with Sage software solutions.

Provide Better Visibility

With over 1,200 reports available, you have instant access to the details behind the numbers, giving you a better understanding of what might require your attention and involvement.

Build Bids Quicker

Sage Estimating simplifies complex calculations and redundant estimating tasks, slashing takeoff time by 50 percent or more compared to manual or generic spreadsheet methods.

Protect Your Finances

From accurately bidding jobs the first time to managing each phase easily and efficiently, Sage gives you complete visibility to ensure projects are profitable from estimate to completion.

Enhance Communication

By automating the process for accessing, sharing and tracking information online, your team becomes more organized, efficient and well-informed, keeping you on schedule and budget.
